

ADOPT A SPOT

Beautification Agreement

This program is designed to help you and your neighbors play an ongoing role in maintaining an area that needs a little extra attention.

The adopting volunteers may plant plants and decorate their spot in order to beautify downtown Elgin. The spot will have to be maintained on a regular basis and as needed. Adopting volunteers will perform routine maintenance such as mowing, weeding, litter removal and landscape plantings.

The City of Elgin will arrange for pick up of trash bags from designated locations if needed. Arrangements for pick up can be made in advance by calling 512-229-3227.

Each adopted spot will receive a sign that recognizes their contributions following successful adoption. If the participants are unable to honor their agreements, the sign will be removed and the spot may be passed on to a different volunteer.

The following person(s) or organization has accepted to adopt-a-spot in Elgin, Texas.

Name of individual/group: _____
