

ADOPT A SPOT

Litter Control Program

Families, groups or businesses may adopt any of these locations and provide regular litter pick up. Locations listed below may be divided into smaller areas if needed. Locations in public right of way can be added to this suggested list. Groups should plan to patrol their spot six times per year or more if able. All groups or individuals should exercise caution when collecting litter in public right of ways and be aware of traffic, snakes, sharp objects, etc. Protective clothing should be utilized.

The City of Elgin will provide trash bags and/or arrange for pick-up of bagged trash. Arrangements for pick up can be made in advance by calling 512-229-3227 or emailing comdevadmin@ci.elgin.tx.us. We encourage groups to consider sorting out recyclables when possible rather than placing those items in the trash.

When you sign up to adopt a spot you will be recognized on the City Website, Elgin Courier, and City of Elgin Mayors Office Facebook page. Send us pictures of your group at work too!

The following person(s) or organization has accepted to Adopt-A-Spot in Elgin, Texas.
